---

We take pleasure in presenting to the Trade, this, our latest Catalogue, illustrating a very extensive line of Period Carvings. These illustrations are one-half actual size and represent our Stock Designs.

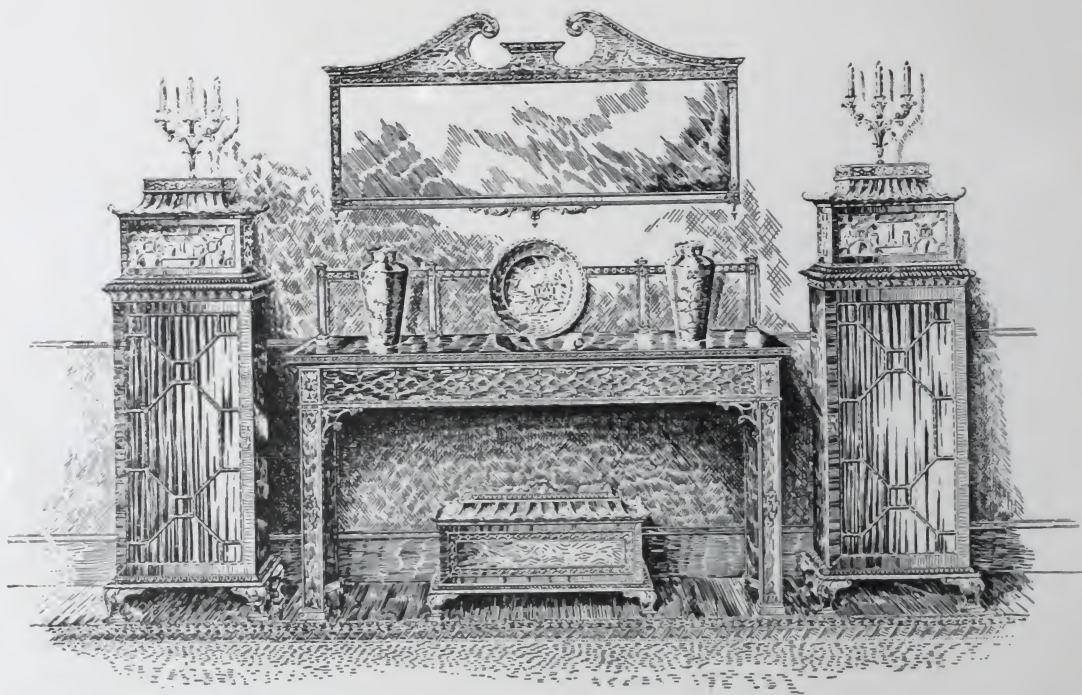

Our Designing Department is at your service, free of expense, for any Special Designs that you may require.

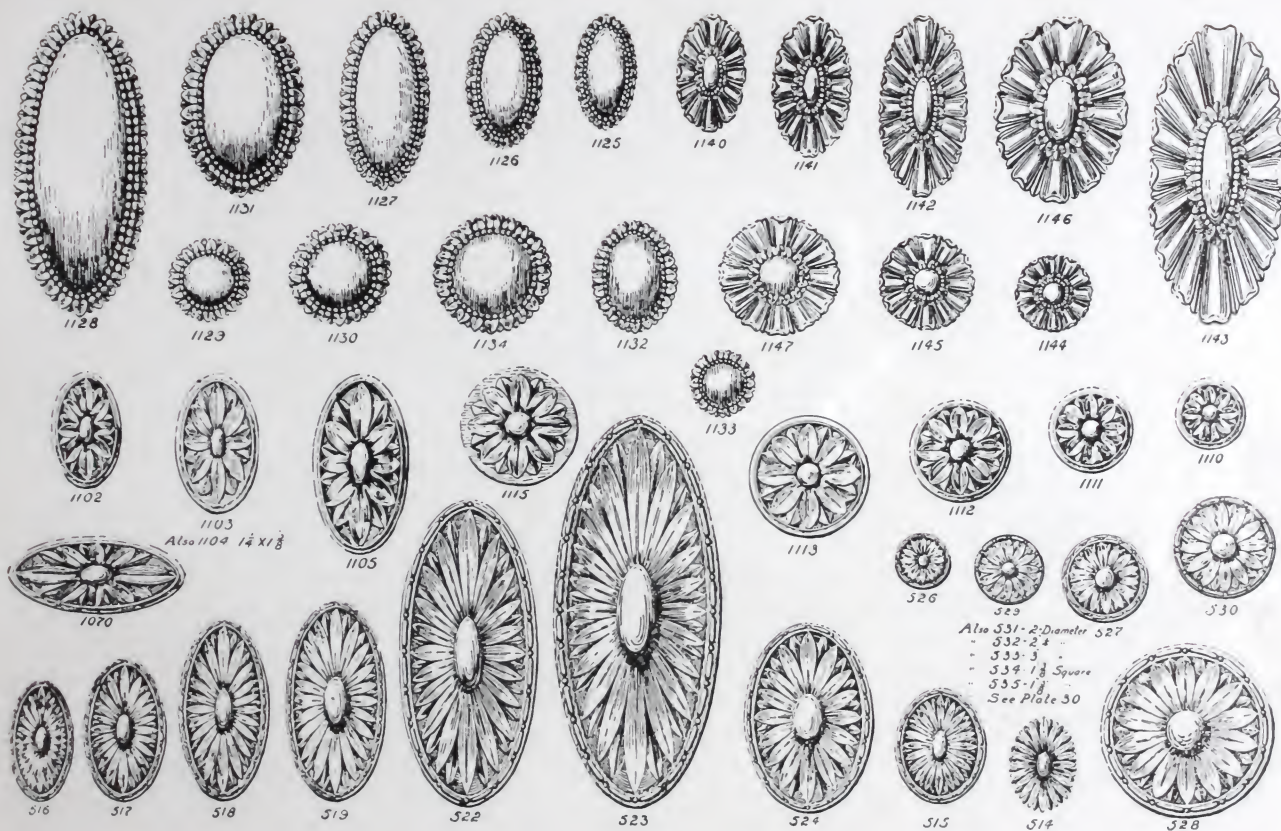

A valuable feature of Walter's "Fibro" Wood Carvings is that they can be made pliable for bending purposes by moistening. Instructions :---Wrap the Carvings in a moist cloth over night and the following morning same will be sufficiently pliable for conforming to any required shape.

When ordering specify the Wood that Carvings are to match, such as Mahogany, Birch, Oak, American Walnut, Circassian Walnut, Gum, Maple or for Enamel.
